Product Overview

The **FLB Series** is an economy minded, energy saving luminaire designed with state-of-the-art lamp and ballast technology. The **FLB Series** is an excellent, energy saving alternative product to metal halide fixtures. Stainless steel latches assure the lens is properly sealed against the poured-in-place, closed cell gasket. Mounting is made easy with the supplied stainless steel "V" hooks or user-supplied cable mounting systems. Applications include food processing and cold storage facilities, dairies, bottlers or any area requiring exposure to water and dust.
