

Description

The *WDL Series* is an energy efficient linear LED fixture designed specifically for heavy hose-down applications. The WDL utilizes a proprietary two point closure system comprised of stainless steel end caps and custom molded gaskets to ensure a positive seal. The component base design allows for quick and easy maintenance. The IP69K rated enclosure utilizes a robust .125" thick chemical and impact resistant **FROSTED** lens to provide a **GLARE FREE**, wide distribution light pattern similar to fluorescent products. ETL listed UL 1598 for Wet Location, Battery Back-Up, CSA Std. C22.2 No. 250.0, ANSI/NSF 2 for Splash Zones, and IP69K rated; the *WDL Series* is designed to hold up to daily sanitation while meeting all USDA requirements.
